dental surcharge reminder

As a reminder, if you are currently enrolled in the [Chevron Dental PPO](#) or [Dental HMO Plan](#), you're encouraged to take steps to protect your health and receive at least one preventive dental cleaning* between **January 1** and **December 31, 2018**. If you do not participate in this preventive care measure in 2018, you will pay \$120 more for your annual Dental PPO or Dental HMO Plan premium in 2019. It's still your choice to receive a cleaning or not, but if you choose to participate, you'll save money in 2019 and you'll be doing something good for your health.

**If you have not already completed your cleaning, don't wait until December.
Please complete your cleaning as soon as possible.**

** For participants with dentures, receive at least one oral exam in lieu of a cleaning.*

what to expect during open enrollment

The BenefitConnect website will generally display **Dental Cleaning – Verification Pending** during open enrollment. The HR Service Center will conduct a verification process with Delta Dental in early 2019 to determine if the dental surcharge applies to you.

- You do not need to do anything to report completion of your cleaning at this time.
- If it is determined that the dental surcharge does in fact apply to you in 2019, the BenefitConnect website will be updated, and you will be mailed a revised confirmation statement by the end of the first quarter of 2019.
- If applicable, the \$120 dental surcharge will be applied to your Chevron Dental PPO or Dental HMO Plan coverage over 20 pay periods beginning in March 2019. The dental surcharge will appear as a separate payroll deduction line item on your pay statements.
