U.S. payroll update tax cuts and jobs act of 2017

human energy. yours.™

The Tax Cuts and Jobs Act of 2017, signed into law on December 22, contains significant tax law changes that will impact U.S. taxpayers, effective 2018. Individual taxpayers will see changes to tax rates, credits, exemptions and deductions.

The Internal Revenue Service (IRS) issued new tax withholding tables on January 11 to implement the new tax law. The IRS said, "The new withholding tables are designed to work with the Form W-4 that workers have already filed with their employers to claim withholding allowances." Until a new Form W-4 is issued, the IRS said employees and employers should continue to use the 2017 Form W-4.

Chevron is working to implement the new withholding tables as soon as possible and will notify employees once system updates are completed. In the meantime, the IRS has told employers to use existing 2017 withholding tables and systems.

Once the system is updated with the new tax withholding tables, you may see changes to your paycheck depending on your individual situation. Please note that Chevron does not provide income tax advice to employees. It is your responsibility to review your 2018 tax withholding and make adjustments as needed via [My HR - Employee Services](#).

Please refer to the **Taxes and Withholdings** section of the [Paycheck FAQs for Employees](#) for updates.
