

Year-end benefit transition reminders

Your Health.

During the month of December and January, enrolled participants in Chevron medical, dental, flexible spending accounts, critical illness insurance and hospital indemnity insurance will be receiving welcome kits, ID cards and email reminders regarding the transition to new claims administrators in 2017. The information is intended to help you get started with using your coverage in 2017; we'll share additional tools, resources and programs available under the new claims administrators during the year.

Links to Chevron's year-end transition emails – sent directly to enrolled participants – are included here for your ongoing reference. We'll update this page as new emails are released.
