

vision

basic vision

When you enroll in any Chevron medical plan, your plan automatically includes basic vision coverage at no additional premium cost or payroll deduction. Basic vision coverage generally includes a well vision exam (preventive care) and discounts on lenses, frames and contacts.

- If you enroll in the Chevron Medical PPO Plan, the HDHP or the HDHP Basic, you're also automatically enrolled in the Chevron Vision Program for basic vision coverage with **VSP**.
- If you enroll in the Medical HMO Plan – Kaiser Colorado, your coverage also includes basic vision coverage through **Kaiser**.

vision plus program

This coverage is most like your PDC Energy Vision Plan. The **Chevron Vision Plus Program** with **VSP** provides other essential vision coverage in addition to a well vision exam *plus* expanded coverage for contacts and prescription eyewear.

coverage levels

- You only
- You + one adult
- You + child(ren)
- You + family

monthly cost

Your personalized premium cost information will be included in the enrollment materials you will receive in November directly from Benefit Connect | COBRA.
