

# coverage for influenza vaccine prescription drug program effective september 15, 2020 – december 31, 2020

human energy. yours.™

## Update to the summary plan description (SPD)

All changes described in this SMM are effective September 15, 2020 through December 31, 2020.

The enclosed information serves as an official summary of material modification (SMM) for the plans referenced herein. Please keep this information with your other plan documents for future reference. You can access the summary plan descriptions for your benefits at [hr2.chevron.com](http://hr2.chevron.com) or by calling the HR Service Center at 1-888-825-5247.

---

## coverage for influenza vaccine

*When you enroll in the Medical PPO Plan, the High Deductible Health Plan (HDHP) or the High Deductible Health Plan Basic (HDHP Basic), you are also automatically enrolled in prescription drug coverage through the Prescription Drug Program with Express Scripts. This change applies to the Prescription Drug Program for participants in the Medical PPO Plan, the High Deductible Health Plan (HDHP) and the High Deductible Health Plan Basic (HDHP Basic).*

---

Effective **September 15, 2020** through **December 31, 2020**, the Prescription Drug Program will provide coverage for influenza vaccines for enrolled participants as follows:

- The influenza vaccine must be received from an **Express Scripts network pharmacy**. You'll need to present your Express Scripts ID card at the time of service.
- The influenza vaccine administered must be on the **Express Scripts National Preferred Formulary** and can be delivered in either the injectable or intranasal form.
- Covered influenza vaccines will be paid at **100% of the Network Price** with no copayment/coinsurance and no deductible.

Participants enrolled in the Medical PPO Plan, the High Deductible Health Plan (HDHP) or the High Deductible Health Plan Basic (HDHP Basic), will also continue to have coverage for the flu shot as part of the standard preventive care coverage under the medical benefit.

It's important to understand that the Prescription Drug Program doesn't provide coverage for influenza vaccines that are *not* on the Express Scripts National Preferred Formulary or if the vaccine is received from an out-of-network pharmacy. If you plan to get your flu shot at a pharmacy, go to [hr2.chevron.com/flushot](http://hr2.chevron.com/flushot) to search the Express Scripts provider network or to review the current formulary. You can also call Express Scripts Member Services at 1-800-987-8368 for assistance.

*This communication provides only certain highlights about changes of benefit provisions. It is not intended to be a complete explanation. If there are any discrepancies between this communication and the legal plan documents, the legal plan documents will prevail to the extent permitted by law. There are no vested rights with respect to Chevron health care plans or any company contributions towards the cost of such health care plans. Rather, Chevron Corporation reserves all rights, for any reason and at any time, to amend, change or terminate these plans or to change or eliminate the company contribution toward the cost of such plans. Such amendments, changes, terminations or eliminations may be applicable without regard to whether someone previously terminated employment with Chevron or previously was subject to a grandfathering provision. Some benefit plans and policies described in this document may be subject to collective bargaining and, therefore, may not apply to union-represented employees.*
