annual combined deductible

This change applies to Chevron Mental Health and Substance Use Disorder (MHSUD) Plan participants who are also enrolled in the High Deductible Health Plan (HDHP)

As a reminder, the Chevron HDHP has one **combined deductible** for medical, prescription drugs (both retail and mail-order), mental health and substance use disorder services. This means you'll have to pay the full cost for covered services and supplies until you reach the deductible for the year. The deductible amount for covered services is the same, regardless of if you see a network or an out-of-network provider. When you reach the HDHP network combined deductible amount, as applicable, you will also have met the MHSUD Plan's deductible and the MHSUD Plan will share the cost of covered mental health or substance use disorder services with you.

Effective **January 1, 2023**, the annual combined deductible for the HDHP for covered services received from a network provider will increase to meet federal requirements to be compatible with a health savings account. As a result, there is also a deductible increase for covered services and supplies under the MHSUD Plan.
