coverage for immunizations, including the COVID-19 vaccine

When you enroll in the Medical PPO Plan, the High Deductible Health Plan (HDHP) or the High Deductible Health Plan Basic (HDHP Basic), you are also automatically enrolled in prescription drug coverage through the Prescription Drug Program with Express Scripts. This change applies to the Prescription Drug Program for participants in the Medical PPO Plan, the High Deductible Health Plan (HDHP) and the High Deductible Health Plan Basic (HDHP Basic).

Effective **February 15, 2021**, the Prescription Drug Program will provide coverage for certain immunizations for enrolled participants as follows:

- Covered immunizations *can* be received from a **network pharmacy** or an **out-of-network pharmacy**. When you visit an Express Scripts network pharmacy, you'll need to present your Express Scripts ID card at the time of service.
- To be covered, the immunization must be on the **Express Scripts Standard Preventive Drug List** and/or qualifies as **preventive care** under the Affordable Care Act. Influenza and COVID-19 vaccines are examples of covered immunizations. Contact Express Scripts directly if you have specific questions about covered immunizations.
- Covered immunizations will be paid at **100%** with **no copayment/coinsurance** and **no deductible**. If you visit an out-of-network pharmacy, you'll have to pay the pharmacy at the time of service, then [submit a claim to Express Scripts](#) for reimbursement.
- The immunization must be clinically appropriate and legally acceptable to be administered in a pharmacy setting. For this reason, not all covered immunizations will be available from a pharmacy, and availability may vary from state-to-state due to local laws.

Similar to your medical coverage under the Medical PPO, HDHP or HDHP Basic plans, immunizations for travel outside the United States or for occupational requirements are not covered under the Prescription Drug Program, regardless of whether those immunizations are received from a pharmacy, network, or out-of-network.

Participants enrolled in the Medical PPO Plan, the HDHP or the HDHP Basic, will also continue to have coverage for immunizations as part of the Affordable Care Act preventive care coverage under the **medical benefit** portion of your health plan.

Find a network pharmacy, ask questions

If you plan to get an immunization at a pharmacy, search the Express Scripts provider network and review the current formulary to ensure your immunization is covered.
